INTRODUCTION

Kayan Specialized Environmental Services is a licensed Saudi company accredited by the National Center for Environmental Compliance. We specialize in environmental studies, consultations, and the creation of environmental management plans. Our goal is to provide comprehensive solutions in the environmental sector and meet management system requirements in line with global standards.

At Kayan Specialized Environmental Services, our primary objective is to apply modern scientific methods to advance environmental sustainability. This is achieved through the expertise of our qualified scientific personnel, strict adherence to relevant legislation, and compliance with international standards. We are dedicated to protecting and conserving the environment while continuously working to improve quality of life.

WHO WE ARE

We are Saudi company specializing in environmental services, which include:

- Measurement Equipment
- Procurement Services
- Technical Support
- Environmental Impact Assessment
- Environmental Sustainability
- Carbon Footprint Analysis
- Continuous Monitoring Systems and Networks for Various Types of Pollution (Water, Air, Noise, Soil, Light)

OUR MESSAGE

- We propose and develop engineering solutions and technologies to address and mitigate the environmental impacts of industrial activities, while also transferring global knowledge and expertise.
- Our commitment lies in conserving natural resources, protecting ecosystems, and fostering a cleaner, healthier world for future generations.

OUR VISION

- We strive to enhance quality of life by ensuring a clean, unpolluted environment and continuously advancing to meet environmental requirements.
- Kayan Company is dedicated to delivering innovative and sustainable environmental solutions. Our commitment is to preserve natural resources, protect ecosystems, and promote a cleaner, healthier world for future generations.

OUR TEAM

Through the company's strategic partnerships with many European and American partnerships, the company's work team is distinguished by its knowledge, experience, and commitment to accuracy in implementing work and meeting customer requirements within the appropriate time and cost.
